STANDARD SIGNS, MARKERS AND SIGNALS USED ON THE HIGHWAYS OF MASSACHUSETTS

Chapter 357, Acts of 1929, provides for uniform traffic signs and signals throughout the Commonwealth

TRAFFIC CONTROL SIGNALS

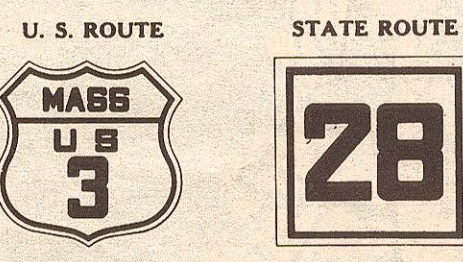

REGULATORY SIGNS

The rectangular sign with white or aluminum background and with variation in legend is used to indicate restriction or limitation.

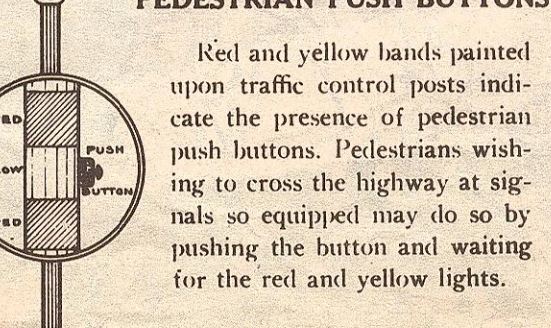

GREEN
Green letters—Limited parking.
Red letters—Prohibited parking.
Black letters—Restrictions as to operation.

ROUTE MARKERS

The letter R or L with a number signifies a right or left turn at the next intersection.

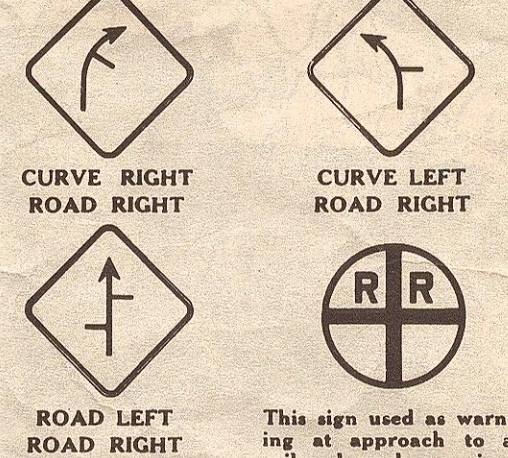

TRAFFIC SIGNAL PEDESTRIAN PUSH BUTTONS

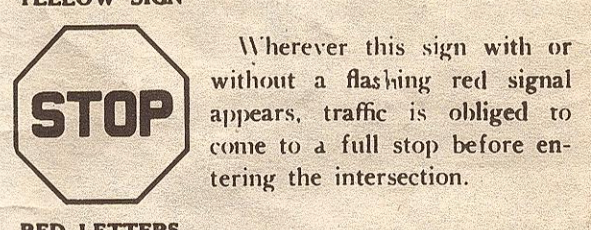

Red and yellow lands painted upon traffic control posts indicate the presence of pedestrian push buttons. Pedestrians wishing to cross the highway at signals so equipped may do so by pushing the button and waiting for the red and yellow lights.

WARNING SIGNS

The diamond shaped yellow signs with black letters or symbols indicate a hazard.

STOP SIGNS

Wherever this sign with or without a flashing red signal appears, traffic is obliged to come to a full stop before entering the intersection.

MASSACHUSETTS TOURWAYS

GREEN LETTERS ON WHITE BACKGROUND

Markers of this type have been placed along several Pleasure Routes throughout the state. These roads pass through rural areas avoiding the heavy traffic on the main thoroughfares. (See Index of Numbered Routes and Destinations.)

NUMBERED ROUTES IN MASSACHUSETTS

Destinations and Lengths. 1941.

No.	From	To	Length (Miles)	Route No.	From	To	Length (Miles)
Fort Kent, Maine	Key West, Florida (2,450 miles)	97	79.4	97	Beverly, 1	Methuen at N. H. line	25.1
